After reviewing and learning about each one of the 79 toys competing, the jury praised the characteristics of each toy, depending on their design, the recommended age of use, educational value, originality, etc. to decide which candidates would be recognized in each of the nine categories in competition.

The jury awarded Yuhuhugs with the 2015 Best Toy in the category of: Home imitation & Environment and Musical Toys for DreamHut mini.

DreamHut mini is a playhouse to stimulate imagination and thinking, plus when not in use the piece can blend in with the rest of the room as it resembles a sleek designer armoire.

DreamHut mini's features include magnetic walls and panels which change the backdrop, or dreams, kids can play with; it has erasable surfaces, a blackboard, a foldable table, and a convenient tablet docking station. The unit includes curtains so kids can travel to their own world whenever they want to.

DreamHut mini comes with a wealth of customization options. You will soon discover that no two DreamHut minis are alike. The magnetic surfaces allow children to play all kinds of fun games. Placing the magnetic sheets, drawing on the blackboard and coloring in the erasable surfaces, children exercise their imagination and increase their manual abilities. Each DreamHut mini includes a "dream" of your choice, and you can collect all others to enjoy along with Yuhu and Hugs, many exciting adventures that will make your gaming experience different each day. <http://www.mejorjuguete.com/product/dreamhut-mini/>

DreamHut mini has a designated shelf to hold a tablet, where children can download any of four educational iBooks from iTunes including *Farmer for the Day*, *Adventures in the Castle*, *Space Explorers* and *Underwater Adventures*.

Additionally, Yuhuhugs along with a team of child psychologists, teachers and children's authors developed **12 Lessons for Greatness** that helps children master the 12 most important life-skills they will need in the future featuring the fun, loveable characters, Yuhu and Hugs. The series includes 12 engaging lessons for parents and another 12 lessons created just for children. For children they will be able to have fun and learn while they read and play. For parents it is a guide to teach and educate young children by means of 12 essential values for good growth.
